He said that he was interested in both vocational education and in representing the Mattapoisett viewpoint in a positive and vigorous manner. Selectman John DeCosta submitted Mr. Huntoon's name in nomination. No other person had expressed interest in the post so that was the only nomination. The moderator abstained from the vote which was unanimously in favor.

ASKS SUPPORT FOR CETA TRAINING

Mrs. Dorothea Pierce of the Mattapoisett School Committee asked that Selectmen support a proposed CETA instruction program by Frank Peterson to involve the school system, Kindergarten through Grade 12 of the Old Rochester Regional High School. The program, she explained, was to be a trial involving about 12 people in teaching dramatic art and photography in classes in the high school, the Marion Art Center and in the Rochester school.

Mrs. Pierce said that she supported the trial and agreed to act as advocate because of the enthusiasm of Mr. Peterson and because of the lack of such training in the school system. The Board of Selectmen expressed a certain caution because of previous experience but

agreed to endorse the trial program with the understanding that no cost whatsoever be charged to the town and that the School Committee retain all control of the group and oversee their effort. The program is to run from July 5th to December 5th, 1978.

BEACH WHARF REPAIR

Selectmen discussed the Bathing Beach Wharf which remains in badly damaged condition because of winter storms. The wharf is badly undermined and will require topping with a foot deep cap of concrete after filling or a temporary paving with black top after filling. Since both measures will involve considerable expense requiring special town meeting the Selectmen expressed urgency in the survey and estimate of cost. Selectman R. William Blasdale said that he favors asking a professional engineer to look over the project. Executive Secretary Stephen Lombard will have the wharf study done at the earliest moment.

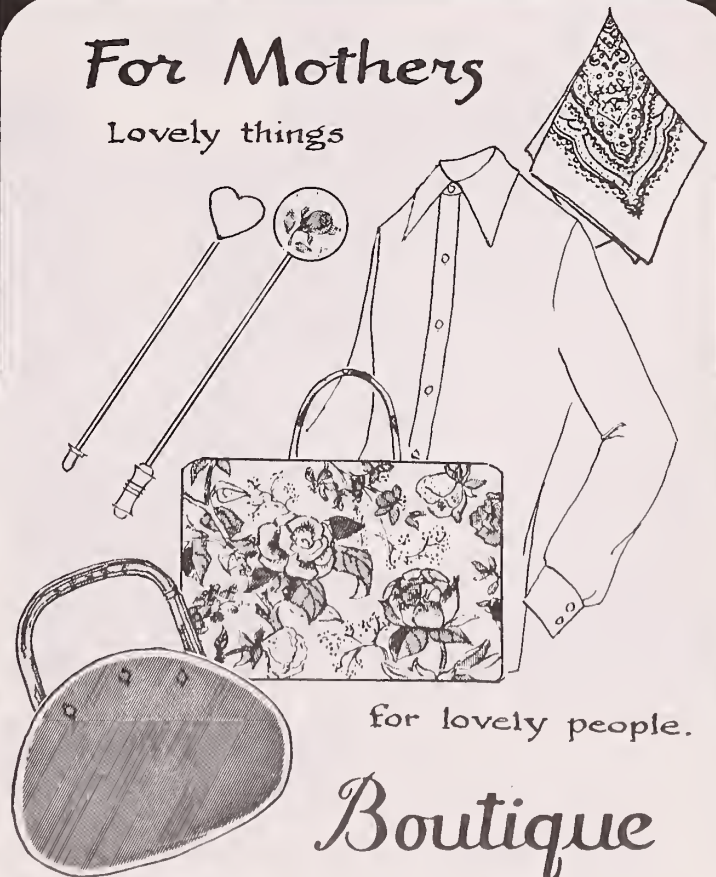

INDUSTRIAL QUESTION

The Selectmen met with the Industrial Park Committee, Dr. Clayton King, Philip Murray, Clarence Fountain, David Cameron and Jack Russell and asked that they proceed to define

the goals and role of the Industrial Park. Mr. Blasdale stated that the primary question is "Does the town of Mattapoissett want to encourage the development of an industrial park?" He noted that Mattapoissett Assessors have very serious reservations as to the ability of an industrial area to create more in taxes than it requires in taxes to service the new residents attracted to work in the town. He also said that in case the committee found that the townspeople favored the development of an industrial park another basic question remains, "How do they want to proceed to develop it?" He said a number of problems must be solved. Among them are the fact that the land is now privately owned. Does the town want to encourage the park on private land or does the town favor acquisition and public development? Also, how many industries could locate in an area not served by a sewer? Does the town favor the extension of the sewer system to the area? All of these questions are vital to any progress toward development, if indeed, that is the policy the town considers it is wise to follow.

Members of the Industrial Park Committee expressed no reservations among themselves that they favored development. They pointed out that opposition to the Park as expressed in town meeting was by a minority who op-

posed it on esthetic grounds as nearby residential neighbors. The Selectmen, in the final analysis, requested that the committee approach industrial committees in neighboring towns to see what experiences they have had, both good and bad.

Blasdale said that the problem is to "preserve our basic character as gracefully as we can as we proceed into the 1980's, while recognizing that some things will have to change, to preserve the basic things that make Mattapoissett Mattapoissett." He said, "It's tough".

The committee agreed to try to contact the nearby industrial committees to find their experience and to discuss and try to ascertain the town's attitude on all of the other questions that have to be decided before any real progress can be made.

Bulldog Day - 1977-1978

The first week of May will mark a host of activities for parents and the general public at Old Rochester Regional High School.

On Thursday evening there will be an open house at the high school. Parents and visitors will have an opportunity to visit all of the facilities of the school, to observe exhibits of student work, and to see some teachers and students at work.

The Music Department is planning an opportunity for visitors to look in on an open rehearsal, the very type of activity that is a part of the day-to-day curriculum.

The staff and students of the Industrial Arts Department, under Coordinator Richard Threlfall, have been hard at work to show our visitors what the Industrial Arts Department is and what part it plays in our comprehensive high school. Students will be at work in all of the shops. Products, finished and in process, will be on display in the area.

It was with great pride and pleasure that we welcomed back into our membership are two original Charter members of our Post: Mr. Theodore R. Bradley and Mr. Kenneth M. Wood, Sr.

I would once again announce that we would welcome and greatly appreciate donations of any amount from members or friends of the American Legion to help pay for articles purchased to outfit a car that will transport elderly and disabled veterans in parades or events that our Post participates in. We have received some donations but more are needed.

Thank You. Warren L. Davis, Commander

Art Center Scholarship

Every year the Marion Art Center presents a \$250 scholarship to a senior from an area high school who plans to study art after graduating. This year portfolios are due on Friday, May 5th, with a reception and awards on Sunday, May 7th, 1 to 3 P.M. A \$50. prize is also given for best in show.

For almost ten years this money has helped young men and women pursue their art education. Becky Zora of Marion was the first recipient and she has returned to teach art at Old Rochester Regional High School. Last year one of her students received the scholarship. Entries from Bourne to Fairhaven are expected. The public is invited to view the show on Sunday afternoon and to see the high calibre work that goes on in our regional schools. Chairman for this event is Marcia Mellor of Onset. For questions or more information please call the Center (748-1266) during gallery hours: 1 to 5 P.M. Tuesdays through Fridays.

An entrant must be a female between the ages of 17 and 26 on Labor Day, a high school graduate, single and never have been married or had a marriage annulled, of good moral character, and a citizen of the United States. be paid in advance, as we either have to get tickets ahead of time or notify the management of our place of visit how many to expect and have the money ready when we arrive. We are anxious to get the money well ahead of time for both the Newport-Hammersmith Farm trip (May 25) and the Heritage Plantation trip (big bus) June 1.

At the last meeting of the Mattapoisett Seniors (April 24) a report was made on a possible trip to Restland Farms in Connecticut. Because of the distance the cost of a big bus would be high and so is the cost of the day's entertainment to each participant. As only two days were available to us (in September or October) and one of these conflicted with the already planned Bowling Banquet, no further action seems likely. However, for those still interested, the New Bedford Recreational Department is sponsoring two trips to Restland Farms--Friday, August 4, and Wednesday, October 18. Tickets for both trips go on sale Tuesday, May 2, at the New Bedford Recreational Office (994-6852). The bus will leave at 8:30 A.M. from New Bedford and return about 7:30 P.M.

DUFF PLUMBING ANNOUNCES

We have added another truck to our fleet expressly for the Marion, Wareham & Rochester area residents. We have had such an increase in calls that we have decided to install a direct, toll-free "Hot Line" for these customers. We have our plumber, Chet, who is a local resident and knows the area well. He will have a well-stocked supply of plumbing needs right at hand.

Are you disappointed to find yourself waiting two days for a plumber, then have him arrive with a helper to carry the tool box, and receive a bill for two men? We pride ourselves on sending one man on service calls.

We take good care of our old customers; it is new customers we are looking for.

Whalewatching Trips

THE WHALES ARE COMING AND MUSEUM
SPONSORS WHALEWATCHING TRIPS

The seasonal migration of several kinds of
great whales into Cape Cod Bay brings to
area residents the unique opportunity of view-
ing these gentle giants at close range. The
Whaling Museum has chartered a large, steel
hulled excursion boat out of Provincetown
for the two whalewatching trips they are
sponsoring this spring.

The first trip, on Tuesday, May 9, is nearly
filled. Therefore, a second trip has been
scheduled for Thursday, June 8. There will
be no rain dates.

Last year, a large school of Finback whales
were observed feeding. Several Humpback
whales, and a great school of porpoise played
with curiosity around the boat, making for
great picture taking.

Cabot's Stains, in 87 unique colors, preserve the wood, accent the grain, never crack, peel, blister.

In planning this home, the architect was striving for beauty, quality, economy. In the selection of exterior finishes, stains were used instead of paints. Thus the architect realized his conception of beauty, kept costs at a reasonable level, and reduced future maintenance.
